To: John McGrath, INSTALL

From: David Altman

Regarding: INSTALL Alliance member documents

Greetings John,

Here is the recommendation statement which you requested. Please let me know if you have any questions.

“At Metroflor Corporation it is our core philosophy to not only produce quality, safe and sustainable products, but to also ensure that our products are installed to the highest standard. Success is based on communication between all parties, good preparation, and attention to detail and by following instructions. The INSTALL alliance program is an important vehicle which encourages collaboration between all parties to impart the knowledge and training of skillsets necessary in today’s marketplace. We are proud to announce our affiliation with INSTALL as an alliance member and recommend INSTALL contractors for the installation of our products.”

Best Regards,

David Altman
